

All For You

You took me from the darkest night
You called me to Your light, to Your light

Your love it helped me overcome
Now I stand here strong, cause of You alone

Not for what You've done (I stand here praising)
You for who You are (My God and only)
Now in the freedom You give
I choose the path You live (Jesus!)

I will follow Your way
For Your love has taken my heart
My life, my praise is all for You
And Your heart has captured me
For I am taken by Your
Endless mercies and Your graces, my God

Instrumental

My God you lived
To glorify
Love came down to save
Pierced and crucified
Conquered death
Gave new life
How you saved my soul
Now I'm alive

Not for what You've done (I stand here praising)
You for who You are (My God and only)
Now in the freedom You give
I choose the path You live (Jesus!)

I will follow Your way
For Your love has taken my heart
My life, my praise is all for You
And Your heart has captured me
For I am taken by Your
Endless mercies and Your graces, my God
